

Username and Password Access

1. To access your protected files with only a Username and Password, Open your web browser and navigate to www.tcnatile.com/downloads.
2. You will be prompted to create an account under the New Customer heading. If you already have an account, enter your username and password in the Returning Customer heading. *Note: This is not the username and password you have been given to access the pdc file(s). This is the email and password you entered when creating your account.*
3. After you create and verify your account, you will be prompted to enter a username and password on the Downloads page. Enter your Username and Password exactly as you received it and click login (case sensitive). *Note: This is not the email and password you just created for your account.*
4. Click on the link below "Download Files." It will appear as Files-XXXXX-XXXXXXXXXX.zip.

5. Having already unzipped your downloaded file, for Windows computers, double click the SafeguardPDFViewer.exe file and follow the setup instructions.

(The Windows version is included in your download or can be freely downloaded [here](#). You can get the free viewer [here](#) for Mac users. Additionally, the product manual for installing the Mac software is [here](#))

6. Go back to your unzipped folder and double click on the license file (.llv file) while connected to the internet.

Name	Date modified	Type	Size
 Instructions.pdf	5/14/2012 10:42 AM	Adobe Acrobat D...	104 KB
 License67439.llv	4/16/2012 9:06 AM	LockLizard Safegu...	1 KB
 SafeguardPDFViewer_v25.exe	4/16/2012 9:06 AM	Application	7,463 KB
 YourDocument.pdc	4/16/2012 9:06 AM	Secure PDF file	36,482 KB

safeguard_license.llv

7. After installing the license file, you may now open your protected pdc documents.

YourDocument.pdc

(You can find out more about the document protection software we are using [here](#).)
